

## The freshest basil for the freshest Italian Pesto!

Did you know that Planet Farms produces ingredients for tasty, sustainable dishes?

The pesto is created in less than 24 hours from the harvest of our fresh basil, with zero chemicals or preservative added.

It is the first and only pesto in Italy with recyclable paper packaging.

We are also pleased to inform you that our scale-up activities are ongoing and the development of our two next farms is underway (one in Italy and one in England).

Go local, go natural, go vertical!
